Serial No.: 10/644,027 Docket No.: 015280-257300US Applicant: Pavlakis, G. N. Filing Date: 08/19/2003

Detailed Office Action

Status of the Claims

Applicant's election with traverse of Group I (claims 3 and in the communication filed 02 November, 2006, acknowledged. The traversal is based upon the premise that the various inventions arise from a common concept. This argument is not found to be persuasive for the reasons of record clearly set for in the last office action. Accordingly, the requirement is still deemed to be proper and is therefore made FINAL. Claims 12, 13, and 32-35 are withdrawn from consideration by the examiner, pursuant to 37 C.F.R. § 1.142(b), as being drawn to a non-elected invention.

37 C.F.R. § 1.98

The information disclosure statement filed 19 August, 2003, fails to comply with 37 C.F.R. § 1.98(a)(2), which requires a legible copy of each cited foreign patent document; each non-patent literature publication or that portion which caused it to be listed; and all other information or that portion which caused it to be listed. It has been placed in the application file, but the information referred to therein has not been considered except where noted. Applicants submit that the aforementioned documents were previously supplied in U.S. Serial No. 09/872,733. At the time of this office action this office action neither the paper copy nor the electronic copy were available for review. Applicants may expedite the consideration of the aforementioned references by supplying copies of said documents.

35 U.S.C. § 120

If applicant desires to claim the benefit of a prior-filed application under 35 U.S.C. § 120, a specific reference to the prior-filed application in compliance with 37 C.F.R. § 1.78(a) must be included in the first sentence(s) of the specification following the title or in an application data sheet. For benefit claims under 35 U.S.C. § 120, § 121 or § 365(c), the reference must include the relationship (i.e., continuation, divisional, or continuation-in-part) of the applications. Applicants are reminded that the status (i.e., Abandoned, Patented) of any applications relied upon for priority should be updated. U.S. Serial No. 09/872,733 has matured into U.S. Patent No. 6,656,706.

37 C.F.R. § 1.821-1.825

application clearly fails to comply with requirements of 37 C.F.R. § 1.821-1.825. Applicant's attention is directed to the final rulemaking notice published at 55 FR 18230 (May 1, 199D), and 1 114 OG 29 (May 15, 1990). If the effective filing date is on or after July 1, 1998, see the final rulemaking notice published at 63 FR 29620 (June 1, 1998) and 1211 OG 82 (June 23, 1998). If the effective filing date is on or after September 8, 2000, see the final rulemaking notice published in the Federal Register at 65 FR 54604 (September 8, 2000) and 1238 OG 145 (September 19, 2000). Applicant must provide an initial computer readable form (CRF) copy of the "Sequence Listing", an initial paper or compact disc copy of the "Sequence Listing", as well as an amendment directing its entry into the application. Applicant must also provide a statement that the content of the Sequence Listing information recorded in

computer readable form is identical to the written (on paper or compact disc) sequence listing and, where applicable, includes no new matter, as required by 37 C.F.R. § 1.821(e), § 1.82149, § 1.821(g), § 1.825(b), or § 1.825(d). If applicant desires the sequence listing in the instant application to be identical with that of another application on file in the U.S. Patent and Trademark Office, such request in accordance with 37 C.F.R. § 1.821(e) may be submitted in lieu of a new CRF.

Claim Objections

Claims 3 and 5-11 are objected to because of the following informalities: the phrase "comprising a SIV-1 gag gene" should read --comprising an SIV gag gene--. Appropriate correction is required.

35 U.S.C. § 112, Second Paragraph

The following is a quotation of the second paragraph of 35 U.S.C. § 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 3 and 5-11 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. Two separate requirements are set forth under this statute: (1) the claims must set forth the subject matter that applicants regard as their invention; and (2) the claims must particularly point out and distinctly define the metes and bounds of the subject matter that will be protected by the patent grant. The reference to SIV-1 in claim

U.S. Serial No.: 10/644,027 Applicants: Pavlakis, G. N., et al.

3 is confusing. While the human immunodeficiency viruses exist as two distinct groups, HIV-1 and -2, the examiner is not aware of any such designation amongst the SIVs. It is suggested that applicants amend the claim language to simply recite --an SIV gag gene--.

35 U.S.C. § 101

The following is a quotation of 35 U.S.C. § 101 which reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter or any new and useful improvement thereof, may obtain a patent therefore, subject to the conditions and requirements of this title.

Claims 6-8 are rejected under 35 U.S.C. § 101 because the claimed invention is directed to non-statutory subject matter. The term "cell" as defined by the specification encompasses gene therapy applications wherein said host cell would be present in a human being, said cell becoming integrated into the human being and therefore being an inseparable part of the human itself. The scope of the claim, therefore, encompasses a human being, which is non-statutory subject matter. As such, the recitation of the limitation "non-human" would be remedial. See 1077 O.G. 24, April 21, 1987.
